AT A GLANCE:

Each year, DLI:

- Administers wage and safety laws affecting Minnesota's 2.8 million employees and 163,000 employers;
- Oversees workers' compensation claims and benefit payments for approximately 75,000 injuries and 60 workplace fatalities annually;
- Conducts almost 160,000 inspections each year;
- Issues 128,000 licenses and registrations annually; and
- Monitors more than 8,000 registered apprenticeships.

PURPOSE

The mission of the Department of Labor and Industry (DLI) is to ensure that Minnesota's work and living environments are healthy, safe and equitable. Our agency provides and enforces reasonable and uniform standards for Minnesota buildings and construction professionals. We also ensure workers' compensation benefits are provided to injured workers quickly and efficiently and at a reasonable cost to employers. In addition, we ensure workers receive appropriate wages and work to promote work-based career development through registered apprenticeships. Our agency also monitors combative sporting events in Minnesota so they are operated safely and fairly.

Through these activities, DLI contributes to the following statewide outcomes:

- People in Minnesota are safe;
- Strong and stable families and communities; and
- A thriving economy that encourages business growth and employment opportunities.

BUDGET

DLI spends 49% of the agency receipts on providing benefits to injured workers.

Source: SWIFT

DLI's revenues are mostly comprised of special revenues such as the workers' compensation assessment, construction code inspection and licensure fees, permits and other such revenues.

Source: Consolidated Fund Statement

The **Workers' Compensation Division** is funded through an appropriation from the workers' compensation fund. The revenues are collected through an insurer premium surcharge and self-insured assessment. Workers' compensation benefits are paid on behalf of employees of uninsured and bankrupt self-insured employers. Reimbursements to insurers and self-insured employers under the supplemental benefits and second injury programs make up the bulk of benefit payments.

The **Workplace Safety Program** is funded with federal grants and state matching funds. The Occupational Safety and Health Administration Compliance activity (OSHA) receives a 50% federal funding level. There is a 90% federal funding level for our Consultation activity. Matching funds are provided through an appropriation from the workers' compensation fund.

The **Construction Codes and Licensing Division** is funded through a special revenue fund and operates on a fee-for-service model. Fees are collected from the industry stakeholders and deposited in the Construction Code Fund established in the state treasury.

The **Labor Standards activity** is financed by an appropriation from the general fund. The activity also collects back-wages owed to employees by employers. These funds are given to the employees and DLI does not retain these funds.

The **Apprenticeship activity** is funded from an appropriation from the workforce development fund.

The **General Support Division** is financed by an appropriation from the workers' compensation fund and indirect cost revenue recovered from the agency's other programs.

STRATEGIES

To accomplish its mission, we use the following strategies:

- **Dispute resolution.** Provide prompt and fair resolution of workers' compensation disputes.
- **Workplace safety.** Focus OSHA inspection and consultation resources where data indicate the greatest potential for improving workplace safety and health.
- **Education.** Educate employers and workers so they understand their rights and responsibilities under Minnesota labor standards, workers' compensation and OSHA laws.
- **Continuous improvement.** Improve efficiency and customer service by increasing the use of electronic processing of permits, licenses, and other filings.
- **Workforce development.** Work with Minnesota colleges and others to develop apprenticeship opportunities.

The Department of Labor and Industry's legal authority comes from Minnesota Statutes, chapters 175 – 178, 181 – 182, 184, 184B, 326B, 327 and 327B.

Labor & Industry

FY16-17 Biennial Budget Change Item

Change Item: Reduction for Construction Code & Licensing Division (CCLD) Licensing Fees

Fiscal Impact (\$000s)	FY 2016	FY 2017	FY 2018	FY 2019
General Fund				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Construction Codes Funds				
Expenditures	(1,784)	(1,784)	0	0
Revenues	(1,534)	(1,534)	0	0
Net Fiscal Impact = (Expenditures – Revenues)	250	250	0	0
FTEs	0	0	0	0

Recommendation:

The Governor recommends a reduction to Construction Codes & Licensing Division (CCLD) licensing fees by approximately \$20 for FY2016 and FY2017. This includes licenses for construction contractors, electricians, plumbers, high pressure pipefitters and boiler operators. This will result in the licensing program revenues being more closely aligned with program costs.

This fee adjustment will reduce license revenues for CCLD by about 29% or \$1.534 million annually and reduce the division's overall revenues by 5.9% annually. Revenue from licensing fees accounts for 17.4% of total CCLD revenues.

Rationale/Background:

Effective January 1, 2012, Minnesota Session Laws, 2010, reorganized and aligned all CCLD license fees for consistency and uniformity among licensees. Previously each license category maintained a legacy fee structure carried forward from its previous regulatory agency before becoming a part of the Department of Labor and Industry in 2005. Since the 2012 fee alignment, the combined effect of the improved construction economy and greater CCLD efficiencies, especially on-line licensing, has resulted in more revenue than needed to run the program.

Beginning in FY '16, if enacted the \$20 fee reduction will result in total savings to CCLD customers of \$1,534 million.

Effective July 1, 2015, the statutory sunset of e-licensing fees (\$.5M in savings); statutory reduction of the fixed-rate permit surcharge from \$5 to \$1 (\$1.12M in savings); and planned reduction of the Contractor Recovery Fund assessment from \$150 to \$80 per licensed residential contractor (.5M in savings) will result in an overall savings of \$3,564 million.

Proposal:

The agency proposes to change the existing license fee structure by reducing most license fees by approximately \$20.

This will better balance license fee revenue with operating expenses in FY2016 and FY2017 (the projected expenditures for FY16 are \$3.495 million). These fees will be evaluated during FY2016 and FY2017 to determine if the account can sustain the reduced fees for future Fiscal Years.

Results:

Revenues and Expenditures for CCLD Licenses by fiscal year

Statutory Change(s):

326B.092 Fees

Labor and Industry

FY16-17 Biennial Budget Change Item

Change Item: Workers' Compensation IT System Modernization

Fiscal Impact (\$000s)	FY 2016	FY 2017	FY 2018	FY 2019
General Fund				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Worker's Compensation Fund				
Expenditures	3,000	3,000	3,000	3,000
Revenues	0	0	0	0
Net Fiscal Impact = (Expenditures – Revenues)	3,000	3,000	3,000	3,000
FTEs	0	0	0	0

Recommendation:

The Governor recommends the replacement of a current legacy workers compensation computer application. It will be replaced with a state-of-the-art technology system custom developed for processing workers' compensation claims and information in the Workers' Compensation Division (WCD) at the Department of Labor and Industry (DLI), which includes the following functions: Compliance, Records and Training; Alternative Dispute Resolution; Special Compensation Fund; Vocational Rehabilitation; Workers' Compensation Ombudsman, and Patient Advocate Program.

The expected cost of this new system will be \$12 million to be paid for out of the Workers Compensation Fund. No increase in assessments will be needed.

Rationale/Background:

DLI's current workers' compensation computer system was developed 20 years ago. The system maintains records of every reportable workers' compensation injury that occurs in Minnesota and performs a variety of other workers' compensation related functions for DLI, the Office of Administrative Hearings, and the Workers Compensation Court of Appeals. Because of its age, the system was not designed to efficiently accept and process on-line submissions, which is essential today. Since the system was deployed in 1995, it has expanded considerably in complexity and size as additional projects were completed. The production database is 1.8 Terabytes (TB) of data. New projects are continuously added to keep up with current technology used by DLI stakeholders. This results in increased consumption of disk storage space, requiring additional upkeep and maintenance of the database. Also, because it's an antiquated system it is more and more difficult to find software to use with it and consultants to keep it up.

It is expected that the new system will increase the speed, timeliness and accuracy of filings and the availability of the information in the system. This will benefit all the stakeholders using the system, particularly the injured workers. It will provide quicker access to claim information allowing injured workers to obtain treatment for their injuries and resolve their claims more efficiently resulting in faster return to work and lower costs.. The new system will also provide the opportunity to better streamline the division's business processes. It is expected that it will incorporate all facets of the workers' compensation system including scheduling of proceedings, vocational rehabilitation activities, and increase ease and accuracy of administrating and reporting benefits by the Special Compensation Fund unit. It is expected that the new system based on web technology will be more automated and provide greater online access for all stakeholders, resulting in more effective service to the Department's diverse customer base.

Proposal:

This is a new initiative. DLI and MNIT@DLI are currently in the process of completing a planning effort, in conjunction with a technology services vendor, to determine options for this system replacement. A buy vs build analysis will be included in this planning effort. The objectives of this planning effort include:

- Complete an analysis of the current Workers' Compensation system, including:
 - Business Processes
 - Current system technical design and functionality
 - Workflow and scanning processes
 - Reports;
- Determine business and high-level system design requirements for a new system; and

- Provide an analysis of technology options for a new system.

The expected implementation date for the new system will be during FY18.

A Steering Team made up of DLI business and MNIT@DLI staff will oversee the project to ensure that project deliverables are timely completed, within budget and according to the specifications. Additional state government partners will include the Office of Administrative Hearings, the Workers' Compensation Court of Appeals and other sections within DLI including the Office of General Counsel, and Research and Statistics.

Success indicators for implementation of the new system include:

- Specifications and requirements are met and fully implemented.
- Staffs are trained to enable them to use the new technology and documentation is complete.
- Historical data is successfully converted to allow staff to access.
- Interfaces to other systems are implemented and fully functional.
- The replacement system is fully implemented to meet the needs of the Workers' Compensation Division of Labor and Industry

IT Related Proposals:

The funding for this project will include the IT infrastructure, necessary hardware and training.

There are not expected to be project costs for the FY20-21 biennium.

Results:

Upon project completion, the result will be a state-of-the art technology system for the WCD of DLI, that will be streamlined and provide greatly improved service to all stakeholders in a more timely and efficient manner. .

Statutory Change(s):

No statutory changes are required.

Labor & Industry

FY16-17 Biennial Budget Change Item

Change Item: Apprenticeship Unit Base Increase

Fiscal Impact (\$000s)	FY 2016	FY 2017	FY 2018	FY 2019
General Fund				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Workforce Development Fund				
Expenditures	250	250	250	250
Revenues	0	0	0	0
Net Fiscal Impact = (Expenditures – Revenues)	250	250	250	250
FTEs	2	2	2	2

Recommendation:

The Governor recommends an annual base budget increase of \$250,000 for the Apprenticeship unit for increased minority and female outreach, promotion of apprenticeship, and development and registration of new apprenticeship programs.

- This increases the annual base budget appropriation from the Workforce Development Fund for the Apprenticeship Unit from \$779,000 to \$1.029 million.
- DLI currently receives \$100,000 annually from the Workforce Development Fund for the Labor Education Advancement Grant Program (LEAP). This recommendation does not include an increase in this funding.
- DLI was appropriated \$250,000 from the general fund in FY15 for the Minnesota Private Industry, Public Education, Labor and Industry Experience (PIPELINE) Project to expand dual training and apprenticeship in agriculture, information technology, healthcare services and advanced manufacturing. This project has had a spring-board effect on other apprenticeship and dual-training efforts.

Rationale/Background:

DLI is the State Apprenticeship Agency authorized by the US Department of Labor Office of Apprenticeship. The federal government has set a goal of doubling the number of registered apprenticeships over the next 5 years. Employers, labor, education and the legislature are all engaged with DLI to create and expand registered apprenticeship programs and other dual-training career development models throughout the state.

- There are currently 9,176 registered apprentices in Minnesota, a 14% increase from 2013.
- There are currently 310 apprenticeship sponsors, and over 1,000 apprenticeship employers.
- 3,400 workers started new apprenticeship programs in 2014, a 63% increase from 2011.
- During the 2014 legislative session, the Minnesota Apprenticeship Act was brought into conformance with federal apprenticeship regulations. This has required the unit to revise and increase its outreach, communications and template materials.
- In 2011, the unit hired an individual to provide outreach coordination for the construction trades apprenticeship programs. Since then, minority participation in registered construction apprenticeship has increased from 11% to 18% in 2014.
- Similarly, increased emphasis on outreach to minorities and women in manufacturing, healthcare, and other industries will increase their participation in registered apprenticeship. Consequently, there will be a reduction in racial disparities.
- There is a large statewide effort to expand registered apprenticeship, including the Skilled Manufacturing Customized Training Pilot Project authorized by the 2013 legislature which is developing pilot dual-training programs at four MnSCU schools around the state for the manufacturing industry.
- Continued expansion of the PIPELINE project will increase the number of dual training and apprenticeship programs in new industries for the career development of more Minnesota workers.

Proposal:

- Two new FTE's to market, promote and develop registered apprenticeship programs to more industries, employers, and workers, and to increase apprenticeship participation for women and minorities.

- \$30,000 to support efforts that provide outreach, training, recruitment and retention of apprentices including career exploration programs like Construct Tomorrow, career readiness programs like Under Construction, and dual-training models like the PIPELINE project.

Results:

- Increase the number of registered apprentices by 25% by the end of 2017.
- Increase apprentice participation for women by 2% by the end of 2017.
- Increase apprentice participation for minorities by 4% by the end 2017.

FY16-17 Biennial Budget Change Item

Change Item: Office of Combative Sports Fee Structure Adjustments

Fiscal Impact (\$000s)	FY 2016	FY 2017	FY 2018	FY 2019
General Fund				
Expenditures	0	0	0	0
Revenues	0	0	0	0
Restricted Misc Special Revenue Fund				
Expenditures	(2)	(2)	(2)	(2)
Revenues	(2)	(2)	(2)	(2)
Net Fiscal Impact = (Expenditures – Revenues)	0	0	0	0
FTEs	0	0	0	0

Recommendation:

The Governor recommends a fee structure adjustment decrease for the Office of Combative Sports (OCS). Total annual license fees and event fees will decrease by \$2,000 per year. The fee structure change is needed for Minnesota to be competitive for OCS events with other states and jurisdictions.

- Revenues for OCS in FY2015 are \$87,000 annually.
- DLI proposes decreasing OCS annual revenues to \$85,000.
- DLI has reduced OCS annual operating expenditures from \$199,000 in FY12 to approximately \$115,400 annually beginning in FY15.
- Even with this operating expense reduction, fees need to be adjusted to ensure continued operation and success of the program.

Rationale/Background:

The Combative Sports Commission was sunset effective June 30, 2012 and its duties and regulatory authority transferred to the Department of Labor and Industry on July 1, 2012. The members of the commission were designated as an advisory council to the Commissioner of DLI. DLI determined there was a significant structural deficit in the operation of this activity and requested an increase to all license fees to become self-sustaining. Effective July 1, 2013, all OCS license fees were increased to meet this structural deficit.

In FY2014, the Professional Combatant license fee increased from \$45 to \$100; the Amateur Combatant license fee increased from \$25 to \$80. These increases in part led to a decrease in the number of combatant licenses issued and fewer combative sports events conducted within Minnesota.

Reducing the Professional Combatant fee and the Amateur Combatant fee will encourage more licensed combatants and encourage promoters to hold more events in Minnesota.

OCS regulated 41 events in FY12 and 43 events in FY13. However, after the FY 14 fee increase, events dropped to 36 events and at the current pace will drop to a projected 30 events in FY15.

Proposal:

Total annual fees collected under this proposal will decrease by \$2,000 in FY'16 from \$87,000 to \$85,000.

The proposed fee adjustments are:

- Professional combatant license would be reduced from \$100 to \$70. Amateur combatant license would be reduced from \$60 to \$50. Total revenues from combatant license fees would decrease by \$2,000. However, with lower fees, the number of combatants is projected to increase to the levels of FY2014: Professional licenses from 120 applicants to 144 applicants and amateur licenses from 180 to 216.

IT Related Proposals:

Not applicable

Results:

Performance is currently measured by the ability to protect the health and safety of combatants.

Revenues	0	0	0	0
Net Fiscal Impact = (Expenditures – Revenues)	306	616	616	616
FTEs	0	0	0	0

Recommendation:

The Governor recommends additional funding for compensation related costs associated with the delivery of agency services. This amount represents an annual increase of 1.8% for General Fund, Workers' Compensation Fund, and Workforce Development Fund compensation costs.

Rationale/Background:

Each year, compensation costs rise due to labor contract settlements, and changes in employer-paid contributions for insurance, FICA, Medicare, retirement, and other factors. Absorbing this increase in compensation costs within existing agency base appropriations results in reduced staffing and/or reduced non-compensation spending.

Proposal:

The Governor recommends increasing agencies' general fund budgets for employee wage and benefit costs by 1.8% per year for FY 2016-17. Agencies were instructed to include a 1.8% increase to total compensation each year in their base budgets, based upon the compound annual compensation spending rate increase per FTE over the last ten years for executive branch employees. This recommendation is intended to allow agencies to maintain their current level of agency operations.

For non-General Fund direct appropriated funds, the Governor's budget recommendations also include an adjustment of 1.8% per year, where the amount can be supported by the source of revenue.

Results:

This proposal is intended to allow agencies to continue to provide current levels of service and information to the public.

Statutory Change(s):

N.A.

Program: Workers' Compensationwww.dli.mn.gov/workcomp.asp**AT A GLANCE**

In FY14, we:

- Resolved more than 5,000 disputes involving insurers, employers, employees, and vocational rehabilitation and health care providers;
- Conducted almost 750 mandatory coverage investigations;
- Proactively contacted 5,700 new businesses to educate them about workers' compensation laws;
- Maintained more than 1.9 million workers' compensation files; and
- Provided vocational rehabilitation and placement services to almost 300 injured workers.

PURPOSE & CONTEXT

Workers' Compensation ensures proper benefits and services are delivered to injured workers quickly, efficiently and at a reasonable cost to employers. The division educates employers and employees about Minnesota's workers' compensation laws and enforces those laws. We also administer the Special Compensation Fund, which provides benefits to injured workers whose employers failed to carry workers' compensation insurance. The division provides alternative dispute resolution for workers' compensation disputes. The goal is to resolve disputes quickly and cost-effectively

SERVICES PROVIDED

The Workers' Compensation Division provides services in four primary areas:

1. Compliance, Records and Training;
2. Alternative Dispute Resolution;
3. Special Compensation Fund; and
4. Vocational Rehabilitation.

The Division:

- Educates employees and employers about their rights and responsibilities under workers' compensation laws
- Provides mediation, ombudsman assistance and other dispute resolution services
- Provides workers' compensation benefits to injured workers whose employers did not carry workers' compensation insurance
- Collects and maintains records pertaining to all workers' compensation injuries occurring in Minnesota
- Provides rehabilitation services to injured workers

RESULTS

<i>Type of measure</i>	<i>Description of measure</i>	<i>Previous</i>	<i>Current</i>	<i>Dates</i>
Quantity	Workers' compensation benefits paid by division	\$69.8M	\$56.3M	FY 2010 & FY 2014
Quality	Electronically submitted first reports of injury and other mandatory filings.	8,753	22,733	FY 2010 & FY 2014 ¹
Result	Percentage of mediated sessions that resulted in dispute resolution	77%	82%	FY 2010 & FY 2014 ¹
Result	Workers' compensation administrative expense per \$100 of payroll	\$.026	\$.023	FY 2009 & FY 2013 ¹

The dates above show the change over the most recent five year period available.

The legal authority for the Workers' Compensation Division comes from Minnesota Statutes, chapter 176.

Program: Workplace Safety

<http://www.dli.mn.gov/MnOsha.asp>

AT A GLANCE

Each year on average, Minnesota's Occupational Safety and Health Administration (MN OSHA):

- Conducts almost 3,000 compliance inspections;
- Assists employers through 1,400 consultation visits;
- Responds to 650 employee complaints;
- Investigates 20 workplace fatalities;
- Provides safety grants to 200 employer safety projects;
- Presents safety and health outreach to 3,100 participants;
- Works with 100 voluntary partnerships and alliances with employers; and
- Affects the safety and health of 2.6 million workers at 168,000 Minnesota worksites.

PURPOSE & CONTEXT

The goal of MNOSHA is that every employee returns home safe and healthy at the end of each working day. MNOSHA believes workplaces must share a commitment to workplace safety by employers, employees and their authorized representatives. MNOSHA focuses on regulation through its compliance unit and assistance through its consultation unit to industries with the highest injury and illness rates. MNOSHA is a state plan, one of 27 states authorized by Congress to administer an occupational safety and health program "at least as effective as" the federal OSHA program.

SERVICES PROVIDED

MNOSHA keeps Minnesota employees and workplaces safe by:

- Conducting planned compliance inspections focused on high-hazard industries;
- Investigating workplace fatalities, serious injuries and catastrophic events;
- Responding to complaints by employees about unsafe conditions at their workplace;
- Reviewing employee's protected rights after alleged improper termination or other adverse action;
- Providing training and outreach to employee, employer and citizen groups about safety and health topics;
- Making consultation visits to employers who request assistance about how to make their workplaces safer;
- Working cooperatively with employers through voluntary prevention programs and partnerships; and
- Issuing safety grants to help employers boost their safety and health programs.

RESULTS

Fatal occupational injuries per 100,000 full-time equivalent workers 2012			
State	Fatality Rate		
	2012	2011	2010
Minnesota	2.6	2.3	2.8
Wisconsin	4.0	3.3	3.4
Iowa	6.6	6.3	5.2
South Dakota	6.7	6.7	8.8
North Dakota	17.7	12.4	8.5

This is important because it shows that fewer employees are dying from work-related injuries than in neighboring states. It demonstrates the success of MNOSHA's program.

The following chart shows the change in injury and illness rates over a ten-year period. The chart graphically shows the decline. This data demonstrates that employee injury and illness rates are dropping, and demonstrate evidence of the success of MNOSHA's efforts.

Note: DART Cases are Days Away from Work or Job Restriction or Transfer.

Minnesota Statutes 182 (<https://www.revisor.mn.gov/statutes/?id=182>) provides the legal authority for MNOSHA programs. As a state plan, MNOSHA primarily enforces 29 CFR 1908, 1910 and 1926, and Minnesota Rules 5205 through 5208, 5210 and 5215.

Program: Construction Codes and Serviceswww.dli.mn.gov/Ccld.asp**AT A GLANCE**

Each year, CCLD:

- Issues 128,000 personal and business licenses;
- Administers 9,000 license exams;
- Completes 3,000 building plan reviews;
- Issues 120,000 construction permits; and
- Performs 157,000 inspections.

PURPOSE & CONTEXT

The Construction Codes and Licensing Division (CCLD) works to protect the health, safety and welfare of the public by providing reasonable, uniform and balanced standards for Minnesota's buildings and construction professionals. This provides for the safety of the people of Minnesota and fosters a competitive construction economy that encourages business growth and employment opportunity.

SERVICES PROVIDED

CCLD performs the following services to protect the health, safety and welfare of the public:

- Code adoption and administration: Assures building safety through a comprehensive and effective process of code adoption and uniform statewide code administration.
- Licensing: Assesses the qualifications of construction professionals and protect consumers and workers through contractor licensing.
- Plan review: Reviews construction plans for state-owned and state-licensed facilities, plumbing installations and manufactured structures in a timely manner to ensure safe, code complying buildings that results in a value for the owner.
- Construction permitting: Expedites safe building construction through the efficient processing of permits.
- Inspection services: Provides for the competent inspection of all building construction work under the authority of the state and regularly ensure the safe and operational integrity of elevators and boilers.
- Enforcement: Provides fair and balanced enforcement to achieve compliance with licensure and code requirements.
- Outreach and education: Fosters and promotes safe, accessible and energy efficient building design and construction through outreach and education to construction professionals and the public.

RESULTS

Construction plans for state-owned and state-licensed facilities are reviewed in a timely manner. This is a quantity measure.

Plan Review Results

Permits and occupational license renewals are available for online processing for customer convenience and speedier processing

Quantity: Number of permits issued online

Quantity: Number of online license renewals

Quantity: Number of high-pressure-piping, boiler, elevator, plumbing, building construction and electrical inspections performed.

Minnesota Statutes, chapter 326B provides the legal authority for all programs within the Construction Codes and Licensing Division.

Program: General Support Division

<http://www.dli.mn.gov/OverviewGS.asp>

AT A GLANCE

In FY 2014, we:

- Supported approximately 420 agency employees located statewide;
- Administered \$143 million annual budget;
- Facilitated nearly 6.5 million Web hits;
- Monitored approximately 50 combative sports events;
- Represented DLI programs in more than 142 legal cases;
- Provided data practices training to all DLI employees;
- Responded to 120 requests for statistical data;
- Ensured that 97.9 percent of DLI employees received a performance review;
- Ensured that 98.9 percent of DLI employees have current position descriptions;
- Completed training needs assessments for employees in the Workers' Compensation and Construction Codes and Licensing Divisions.

PURPOSE & CONTEXT

The General Support Division provides leadership and support to agency programs so they can be successful. Activities are customized to meet the unique needs of each activity while assuring adherence to statewide and agency standards for performance, management, and documentation of decisions made. Critical goals are to:

- Develop and adhere to operating policies and services that meet or exceed statewide standards and policies;
- Create and offer utility services within the agency to meet particular programs goals as efficiently as possible while adhering to accepted audit standards;
- Manage agency resources in as transparent a manner as possible to assure stakeholders our stewardship of their investments is sound; and
- Create opportunities for electronic government transactions to assure existing resources can meet the needs to Minnesota's citizens.

This division serves agency programs that focus on the needs of workers, builders, building owners, and employers in Minnesota.

SERVICES PROVIDED

The General Support Division strives to provide effective and efficient services and offer solutions to support agency programs. This is accomplished by each unit as follows:

- Research and Statistics: collects, analyzes and reports workplace safety, workers' compensation and workplace standards data to inform decision-makers and the public.
- Office of the General Counsel: provides legal advice to the department and advocates for the agency in enforcement and other administrative proceedings.
- Financial Services: protects and ensures accountability for the financial resources entrusted to the department.
- Human Resources: recruits, assesses employee development needs and assists in retaining needed skill sets. Also provides services which promote a healthy, productive and respectful work environment and promotes diversity goals in all EEOC Job Groups for people with a disability.
- Communications: updates stakeholders and promotes the work of and services provided by the department.
- Office of Combative Sports: ensures combative events are conducted to minimize injuries and ensures fair competition.
- DLI maintains its information technology services through a service level agreement with MN.IT.

These infrastructure services provide agency support which enable programs to focus on their mission and achieve agency goals.

RESULTS

<i>Type of Measure</i>	<i>Name of Measure</i>	<i>Previous</i>	<i>Current</i>	<i>Dates</i>
Quantity	Percentage of accounts payable paid promptly.	98.56%	99.04%	FY 2013 & FY 2014
Quality	Percentage of position descriptions that are current and performance appraisals that were timely completed.	97.5%	97.9%	FY 2013 & FY 2014
Quality	Percentage of contests monitored for combatants' safety.	100%	100%	FY 2013 & FY 2014
Quantity	Percentage of all DLI employees who have participated in continuous improvement training.	14%	21%	FY 2013 & FY 2014

Minnesota Statutes, chapters 176, 16A, 43A and 341 provide authority for this program's activities.

Program: Labor Standards and Apprenticeship

<http://www.dli.mn.gov/LaborLaw.asp>

<http://www.dli.mn.gov/Appr.asp>

AT A GLANCE

In 2013, the Labor Standards unit:

- Recovered \$448K in final wages for 1,070 workers.
- Completed 351 wage and hour investigations and collected \$357,000 in back wages for 1,078 workers.
- Completed 212 prevailing wage investigations and collected \$280,000 in back wages for 243 workers.

In 2013, the Apprenticeship unit:

- Registered 3,500 new apprentices including 735 minorities and 210 females.
- Assisted 309 registered apprenticeship program sponsors
- Conducted 39 program reviews and 105 technical assistance visits to sponsors.

PURPOSE & CONTEXT

DLI's Labor Standards unit protects Minnesota's economy by ensuring workers are paid correctly and workplace rights and responsibilities are enforced. We conduct outreach and investigations to ensure compliance with Minnesota's Fair Labor Standards laws, including minimum wage, prevailing wage, pregnancy and parental leave, and child labor.

DLI's Apprenticeship unit supports Minnesota's economy as it fosters and promotes work-based career development through registered apprenticeship programs that provide structured training to develop a skilled workforce.

SERVICES PROVIDED

The Labor Standards unit:

- Protects workers by providing outreach education and enforcement of minimum wage, overtime, wage payment, and prevailing wage laws;
- Focuses on child labor initiatives to protect children;
- Provides outreach and education about the 2014 minimum wage increase;
- Conducts outreach, education and enforcement of the new Women's Economic Security Act including protections for pregnancy accommodation, pregnancy and parenting leave, sick and safe leave, nursing mothers, and wage disclosure protection
- Conducts annual prevailing wage surveys to establish wage rates for workers on publicly funded construction projects.

The Apprenticeship unit:

- Provides outreach and education to community organizations, employers and about apprenticeship;
- Develops introductions to construction careers programs for youth including the Construct Tomorrow and UnderConstruction programs;
- Approves new apprenticeship programs and expands programs in healthcare, manufacturing and other industries. Develops personalized outreach and diversity recruiting plans for each apprenticeship program to increase female and minority participation
